Experience

Frontend Intern – Ultron Technologies

May 2025 – June 2025 | VV Nagar, Anand

Worked on developing responsive web applications using React.js and integrated backend services using Node.js. Built dynamic components, connected APIs, and ensured smooth client-server communication.

MERN Stack Intern – Tech Elecon

Dec 2025 – Present | VV Nagar, Anand

Built a full-stack car rental web application with React, Node.js and MongoDB featuring JWT authentication, role-based admin dashboard and responsive UI.

Projects

Car Rental

Jan 2026

Built a full-stack car rental web application with React, Node.js and MongoDB featuring JWT authentication, role-based admin dashboard and responsive UI.

e-Milk ATM System

Mar 2026

Designed a relational database and built an interactive Power BI dashboard to monitor milk ATM transactions, machine health and reconciliation across multiple customer locations using **MySQL** and **Power BI**.

Student Registration System

May 2025

Developed a desktop-based student registration application using **Java Swing** and **MySQL** to store and manage student information such as name, enrollment number, branch, contact details, and email. Implemented form validation and database integration to allow efficient registration and storage of student records.
